MOSEL WEINGUT

TASTING NOTES

2021 Trittenheimer APOTHEKE Riesling Kabinett

AC2109

THE WINE

The exceptional renomme of the Trittenheimer APOTHEKE vineyard comes in part from its unique combination of rocky slate subsoil and a relatively protected southwest exposition. The slate collects the warmth and releases it slowly over an extended period, which promotes good transformation of the acids by the vines. The result: delicate acidity mingling with a spicy, powerful minerality into the picture of liquid sophistication.

Harvest dates are a powerful lever on the Mosel for targeting target specific styles of wine: The grapes for the Trittenheimer APOTHEKE Kabinett are sourced from exceptionally steep parts of the vineyard and carefully sorted during harvest. The fascinating interplay between sweetness and acidity combined with elegant hints of citrus and aromas of currant and ginger makes the base for this filigran wine with it is mineral finish.

VINIFICATION

As befits a premium wine, the grapes are always hand harvested and gently pressed. The must is then fermented using native yeasts in traditional Mosel fuder barrels and left on the lees until April.

PRESS REVIEWS

James Suckling - **94 Points**, *Stuart Pigott*. „As bright and pure as it is juicy and expressive, this is an excellent Mosel Kabinett with the vibrancy and wet stone minerality we expect from this category. The rapier sharpness of the acidity adds a lot of excitement at the very long, almost dry, finish.”

Robert Parker Wine Advocate - **92+ Points**, “Offers a clear, precise, deep, very elegant, refined and stony bouquet of bright fruits. Round, crystalline and pure on the palate...”

Vinum wineguide Germany 2023 - **94 Points**
